

I am a part of the RVing (motorhome) community, and when I am on the road or parked in RV campgrounds, I often rely upon broadcasts of K-LOVE on their network of FM translators for news and entertainment. I am concerned that the proposal of giving priority to LPFM stations will prevent me from receiving K-LOVE. K-LOVE, though national, is the only source of stereo non-denominational Christian broadcasting in many areas. While LPFM is likely to increase the number of sources of Christian broadcasting, the smaller markets are more likely to be tied to specific churches and denominations, most of whom hold beliefs that antithetical to my own. To achieve national coverage and acceptance K-LOVE takes no strong denominational biases, and is inoffensive, yet positive and uplifting. It's place is unique among Christian broadcasts and is my preferred source for Christian music, news, and even prayer, that may become available to me and other Christians in the RVing community.
